

LECILITE[®]

Ingredients for a healthy life

 **LECILITE –**

A GLOBAL NAME IN THE WORLD OF LECITHIN

-  Lecilite is a focused, dynamic and innovation driven organization that provides value added products and innovative solutions in the field of lecithin.
-  For more than 15 years, we have been persistently improving the technology of lecithin processing, creating better products for a diversified portfolio to serve in the field of food, pharmaceuticals, health care, nutraceutical and industrial markets.
-  We pride ourselves on having the best technical intellect on board who are one of the pioneers in the field of lecithin in India and guide us to deliver world-class products.

WHY LECILITE ?

TECHNICAL EXPERTISE :

At the helm of Lecilite, we have both - technical expertise and experience to cater to all your lecithin needs.

STATE-OF-THE-ART FACILITY :

Lecilite is equipped with the state-of-the-art manufacturing facility, certified by the international standards, to deliver the premium quality products. We have a strict quality control to monitor the product parameters at each and every stage.

SUSTAINABLE RAW MATERIAL SOURCING :

Located near the Soy belt of India allows us to monitor and maintain quality of our raw materials at the source.

Upcoming in-house GMO testing laboratory based on Real Time PCR

In-House Microbiology & chemical parameters testing laboratories

PRODUCT RANGE

-  Non-GMO Soya Lecithin Liquid (Food Grade)
-  Soya Lecithin Liquid (Feed Grade)
-  Non-GMO Soya Lecithin Powder (Food Grade)
-  Non-GMO Soya Lecithin Powder (Feed Grade)
-  Non-GMO Soya Lecithin Granules (Food Grade)
-  Non-GMO Soya Lecithin Granules (Feed Grade)
-  Sunflower Lecithin Liquid (Food Grade)
-  Sunflower Lecithin Powder (Food Grade)
-  Sunflower Lecithin Granules (Food Grade)

COMPLETE TRACEABILITY

-  India holds a sweet-spot globally for the Soybean market. Due to strict government norms, import and cultivation of genetically modified soybeans is prohibited and India encourages domestic production of non-GMO agri produce. Our farmers grow only 100% non-GMO Soybeans
-  To adhere to the international standards of traceability, Lecilite has implemented Identity Preservation Programme certified by FOODCHAIN ID (formerly known as CERT-ID). All our Soy products are 100% non-GMO and based on PCR analysis - transgenic DNA, Roundup Ready (RR) soybean, 50 cycle 35S-Promoter, NOS-Terminators, Fig Mosaic Promoter, Cotton Reference Gene etc.
-  We have a robust system in place to fully trace-back the sourced beans which were used to make the batch. All along the value chain we follow stringent checks to make sure our customers receive the quality and 100% non Genetically Modified products.

PRODUCTION CAPACITY

 **LECITHIN POWDER :** 1000 MT/Annum

 **LECITHIN GRANULES:** 200 MT/Annum

 **LIQUID LECITHIN :** 2000 MT/Annum

 **OIL :** 700 MT/Annum

CERTIFICATIONS

WE MEET THE MOST STRINGENT STANDARD ACROSS THE WORLD.

-  **FOODCHAIN ID**
-  **Kosher**
-  **ISO 22000:2005**
-  **Halal**
-  **FSSAI**
